INTRODUCTION

COBIT 5 Implementation training course is devised to demonstrate the application of COBIT 5 to specific business pain points, problems, trigger events and risk scenarios across the enterprise. This course expertly explains to implement and optimally use COBIT 5 for client initiatives and various organizational scenarios.

This COBIT 5 training is a lab intensive course that helps you to gain hands-on expertise in implementing COBIT in various case-based scenarios. The training certification also validates your understanding in applying the continual improvement lifecycle approach of COBIT 5 to address specific business requirements and establish a sustainable approach to the enterprise IT governance and management effectively.

DELIVERY METHOD

Our courses have flexible delivery options:

- In-person classroom training at the Impactful training facilities
 - Johannesburg, Durban, Cape Town
- Virtual instructor-led training
- Nationally: on-site at the client

IMPACTFUL
